

## Sex-specific genes in NK cells across samples

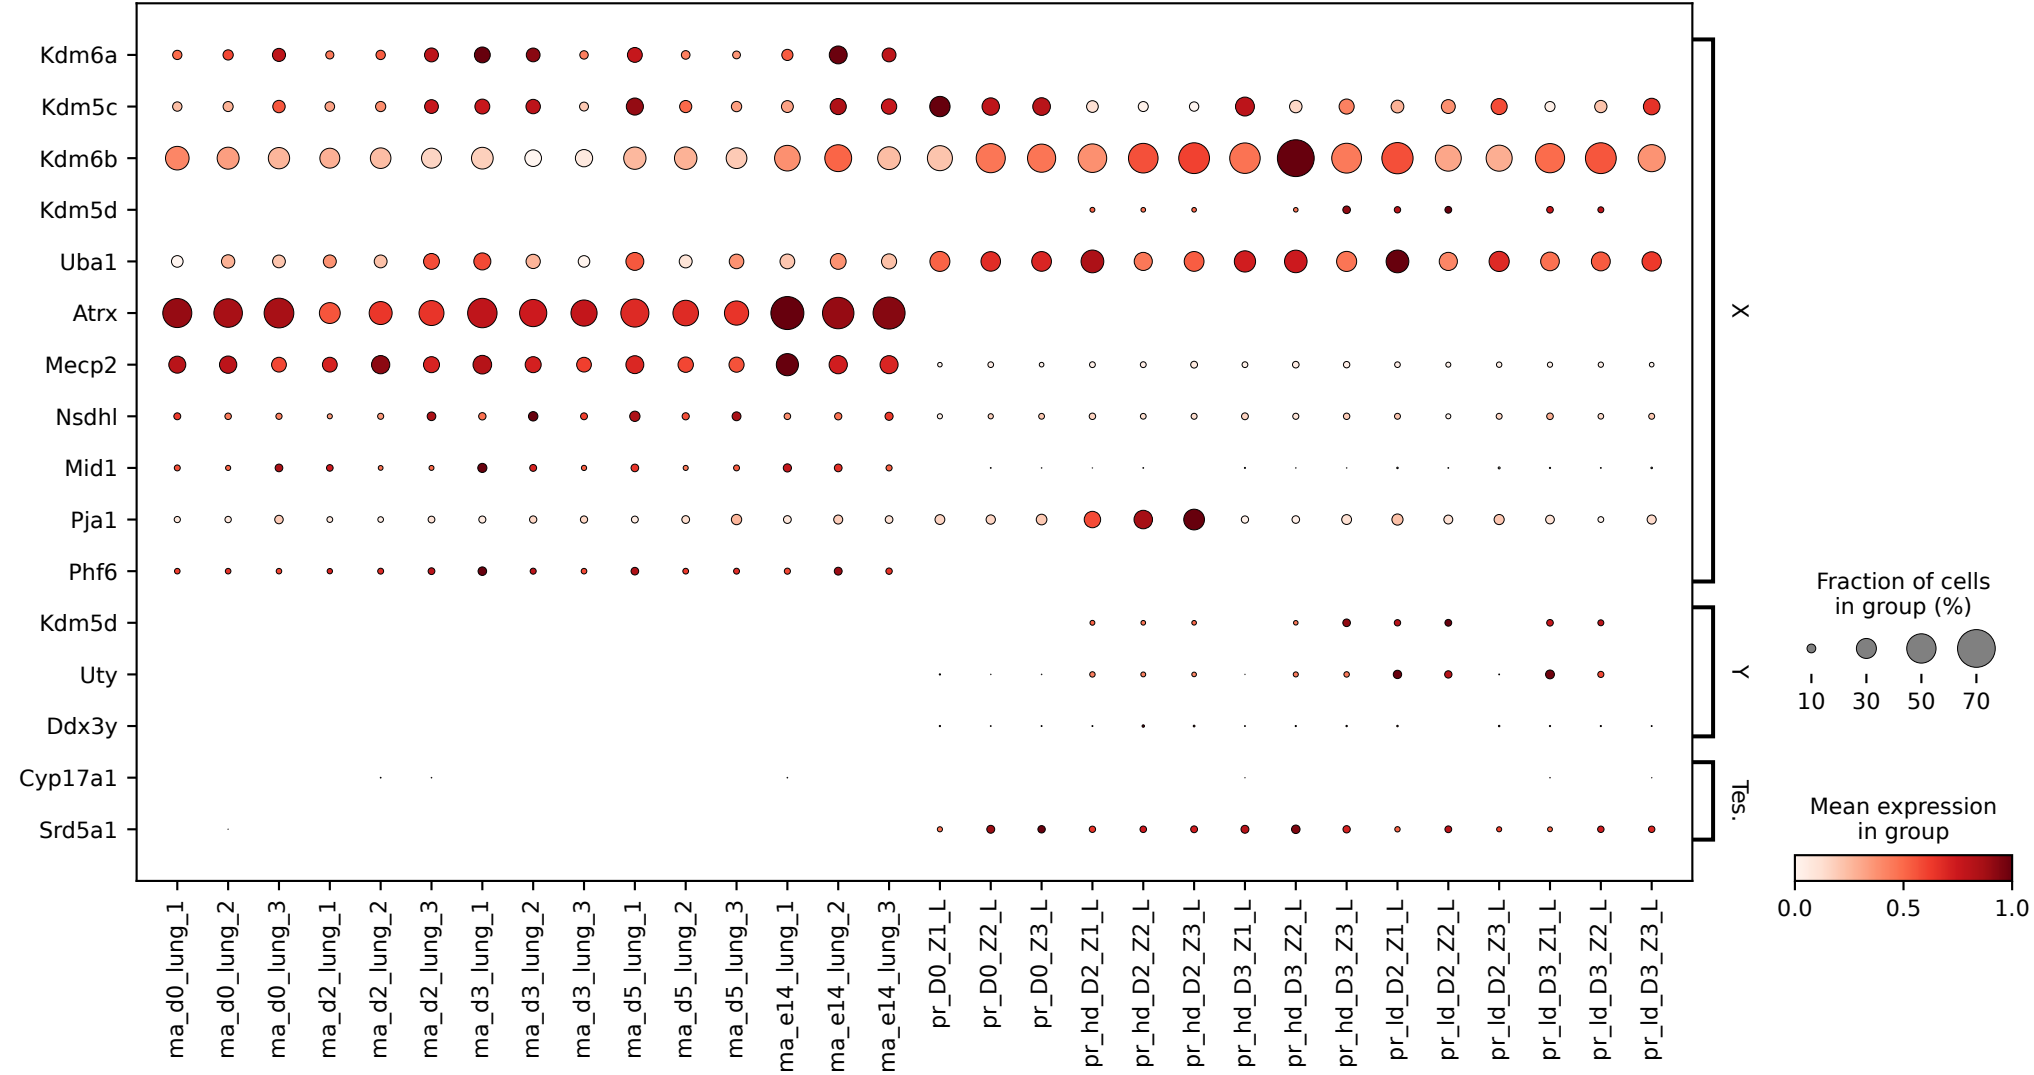

Sex-specific genes in Bcells across samples

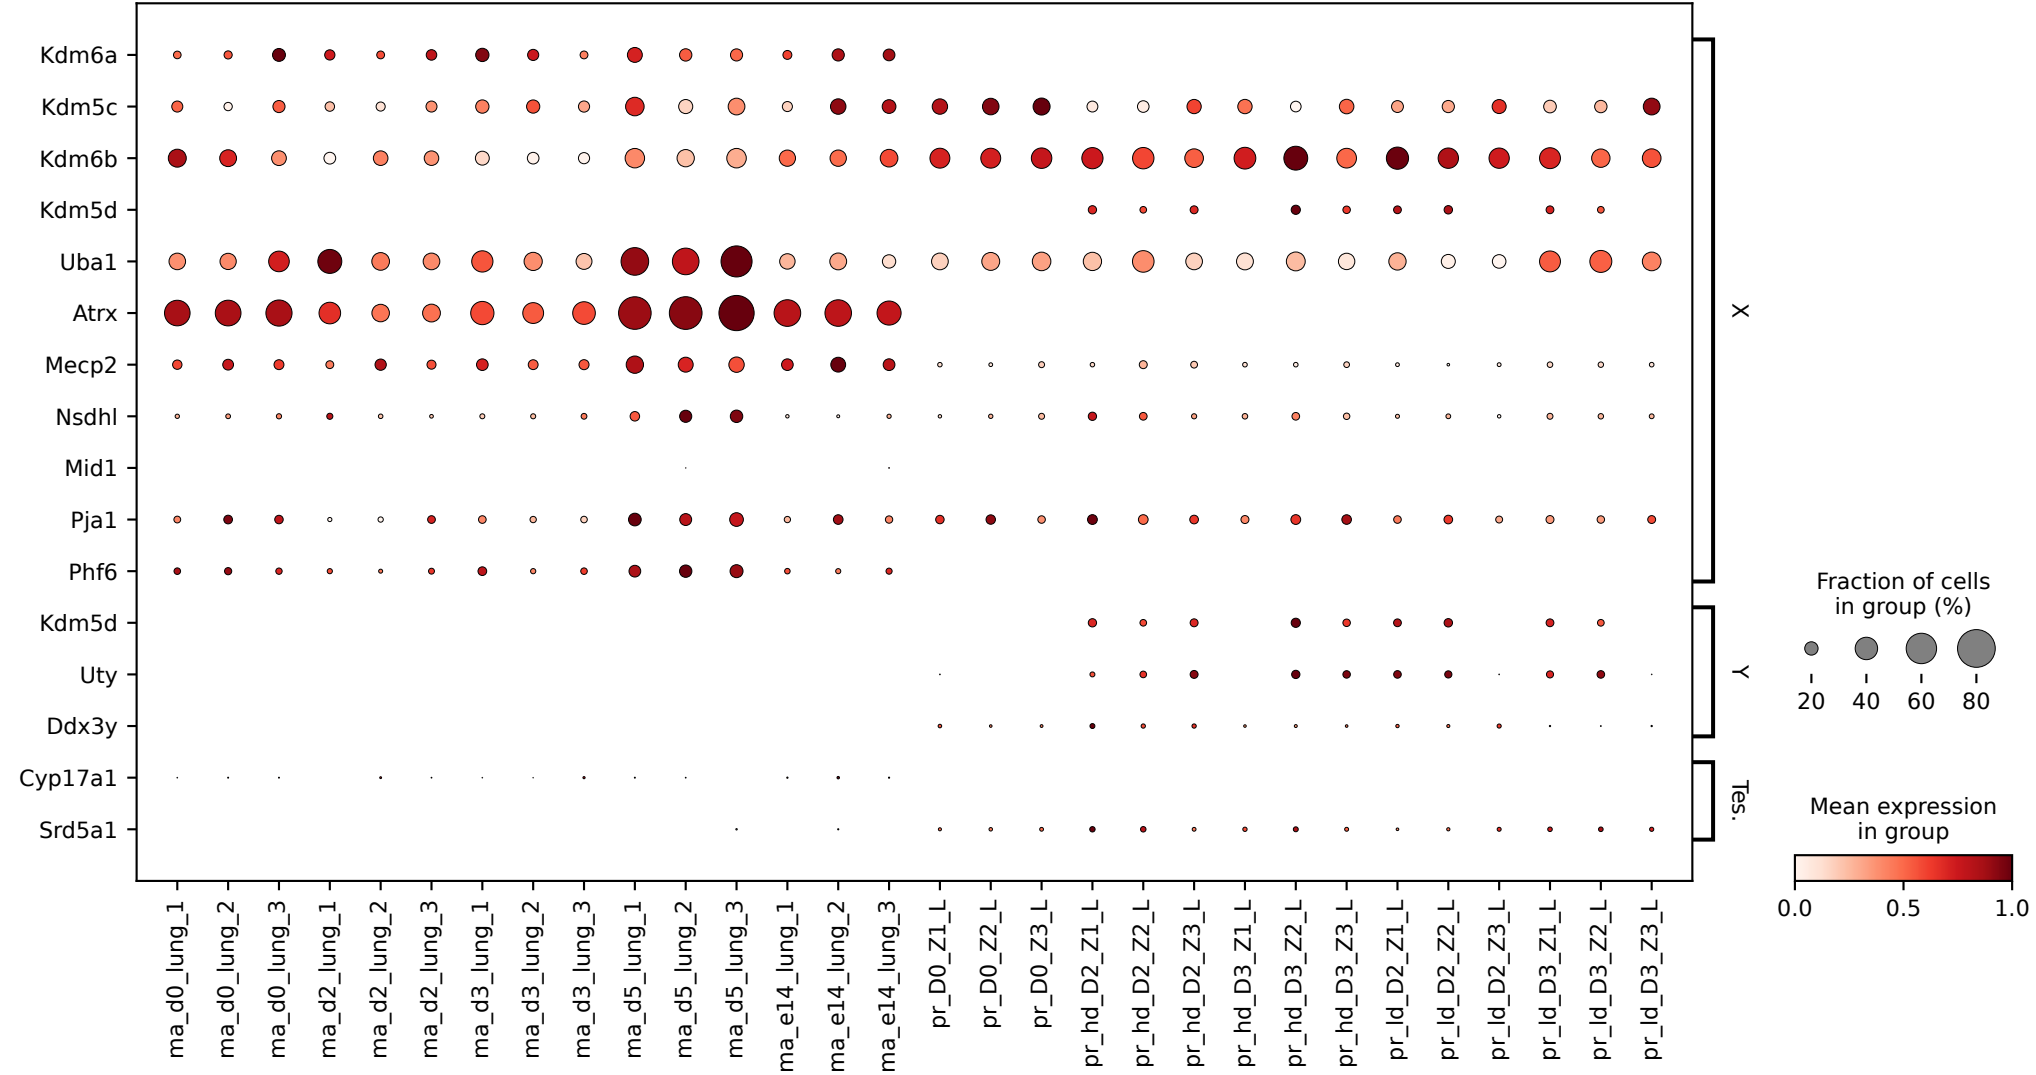

Sex-specific genes in Macrophages across samples

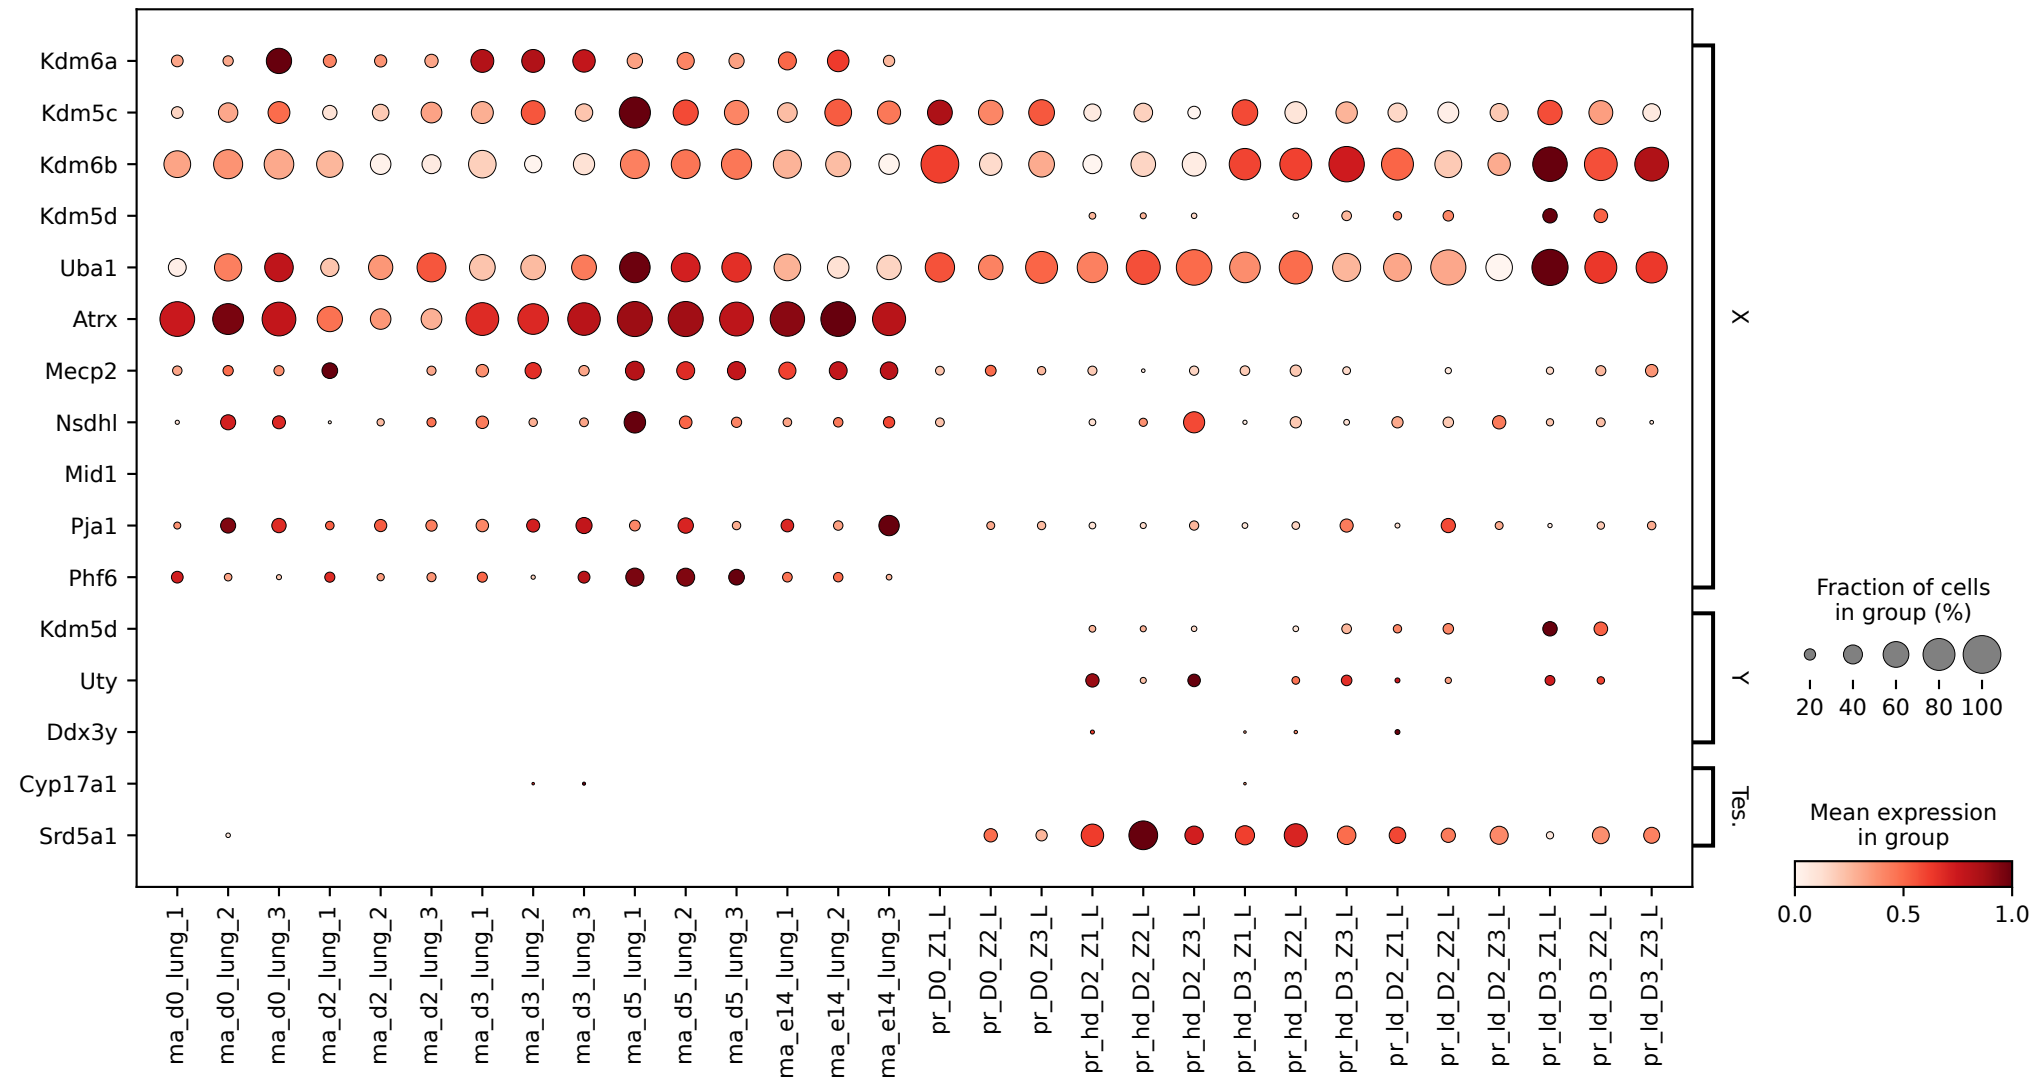

# Sex-specific genes in Endothelial cells across samples

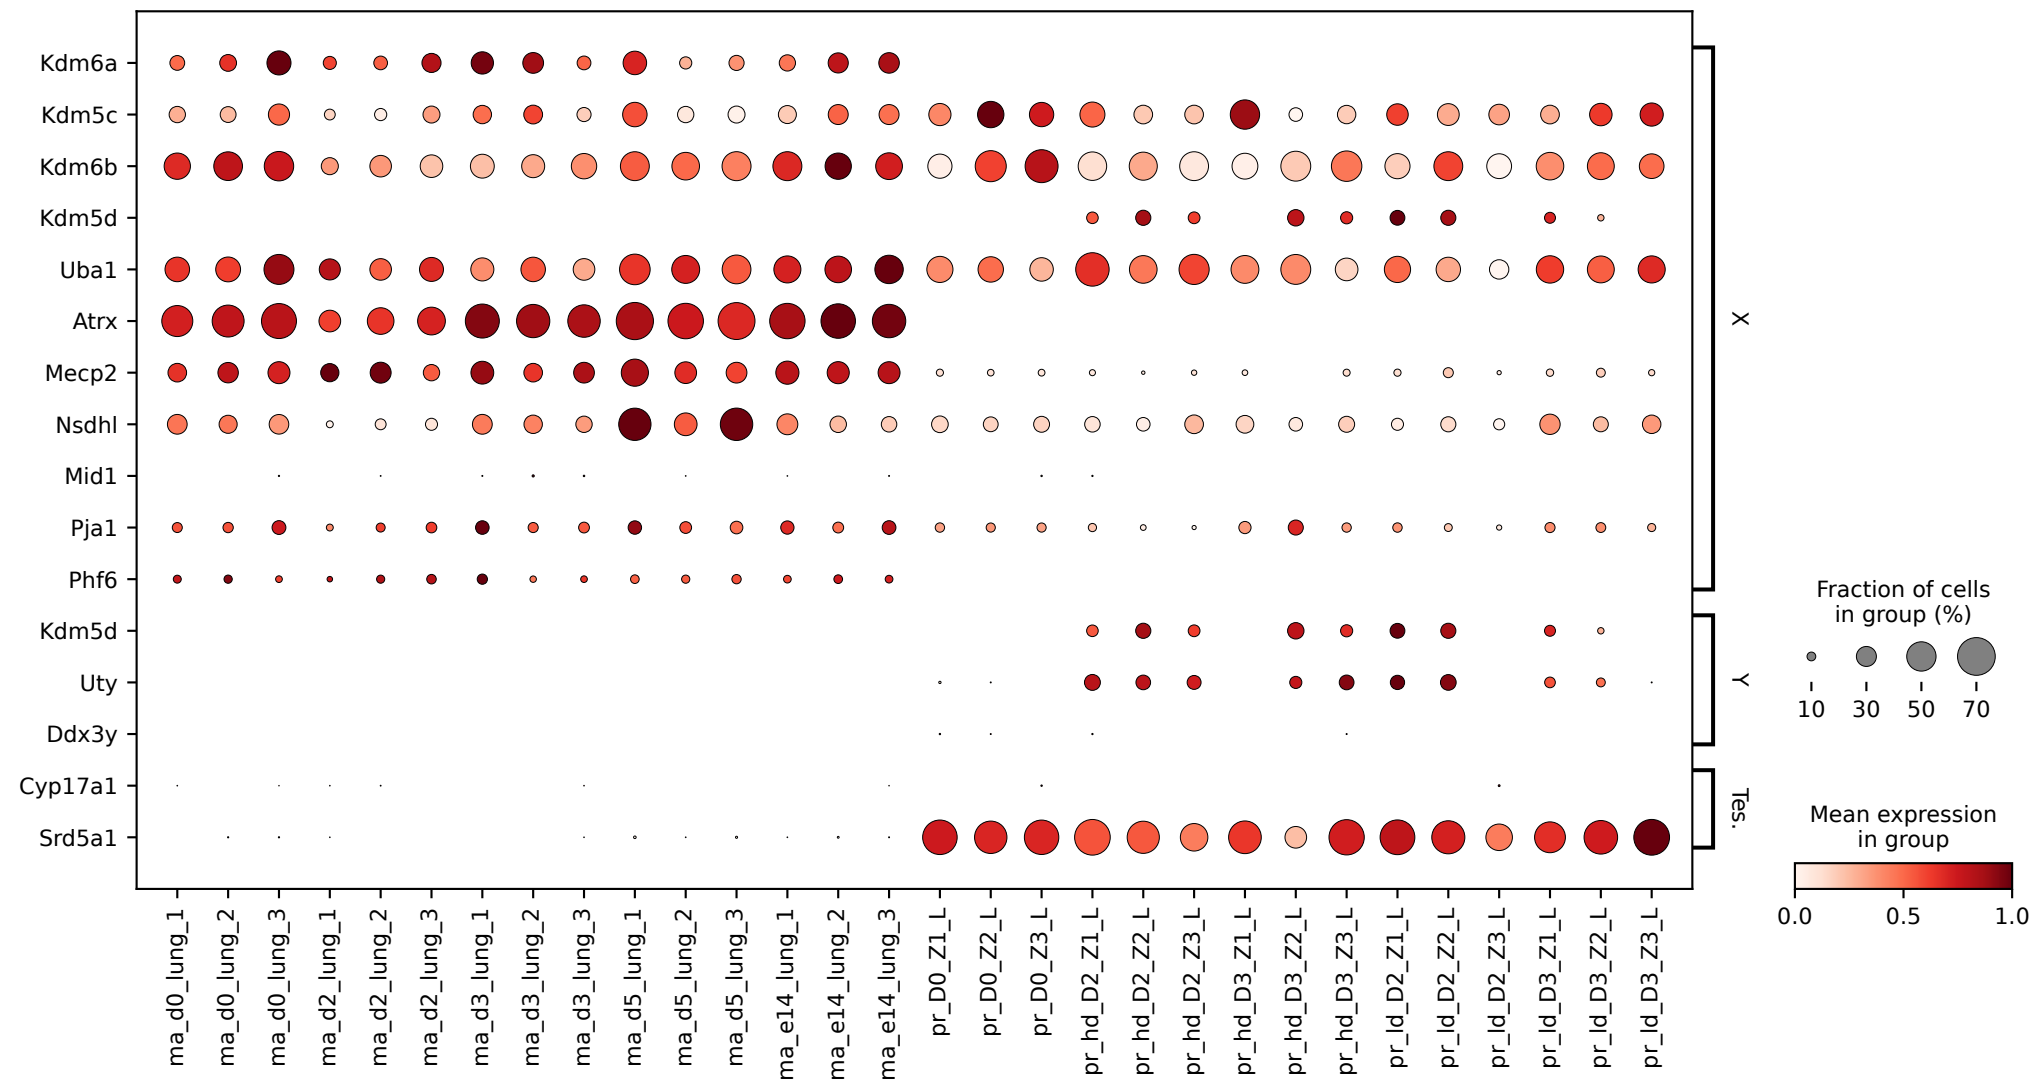

# Sex-specific genes in T cells across samples

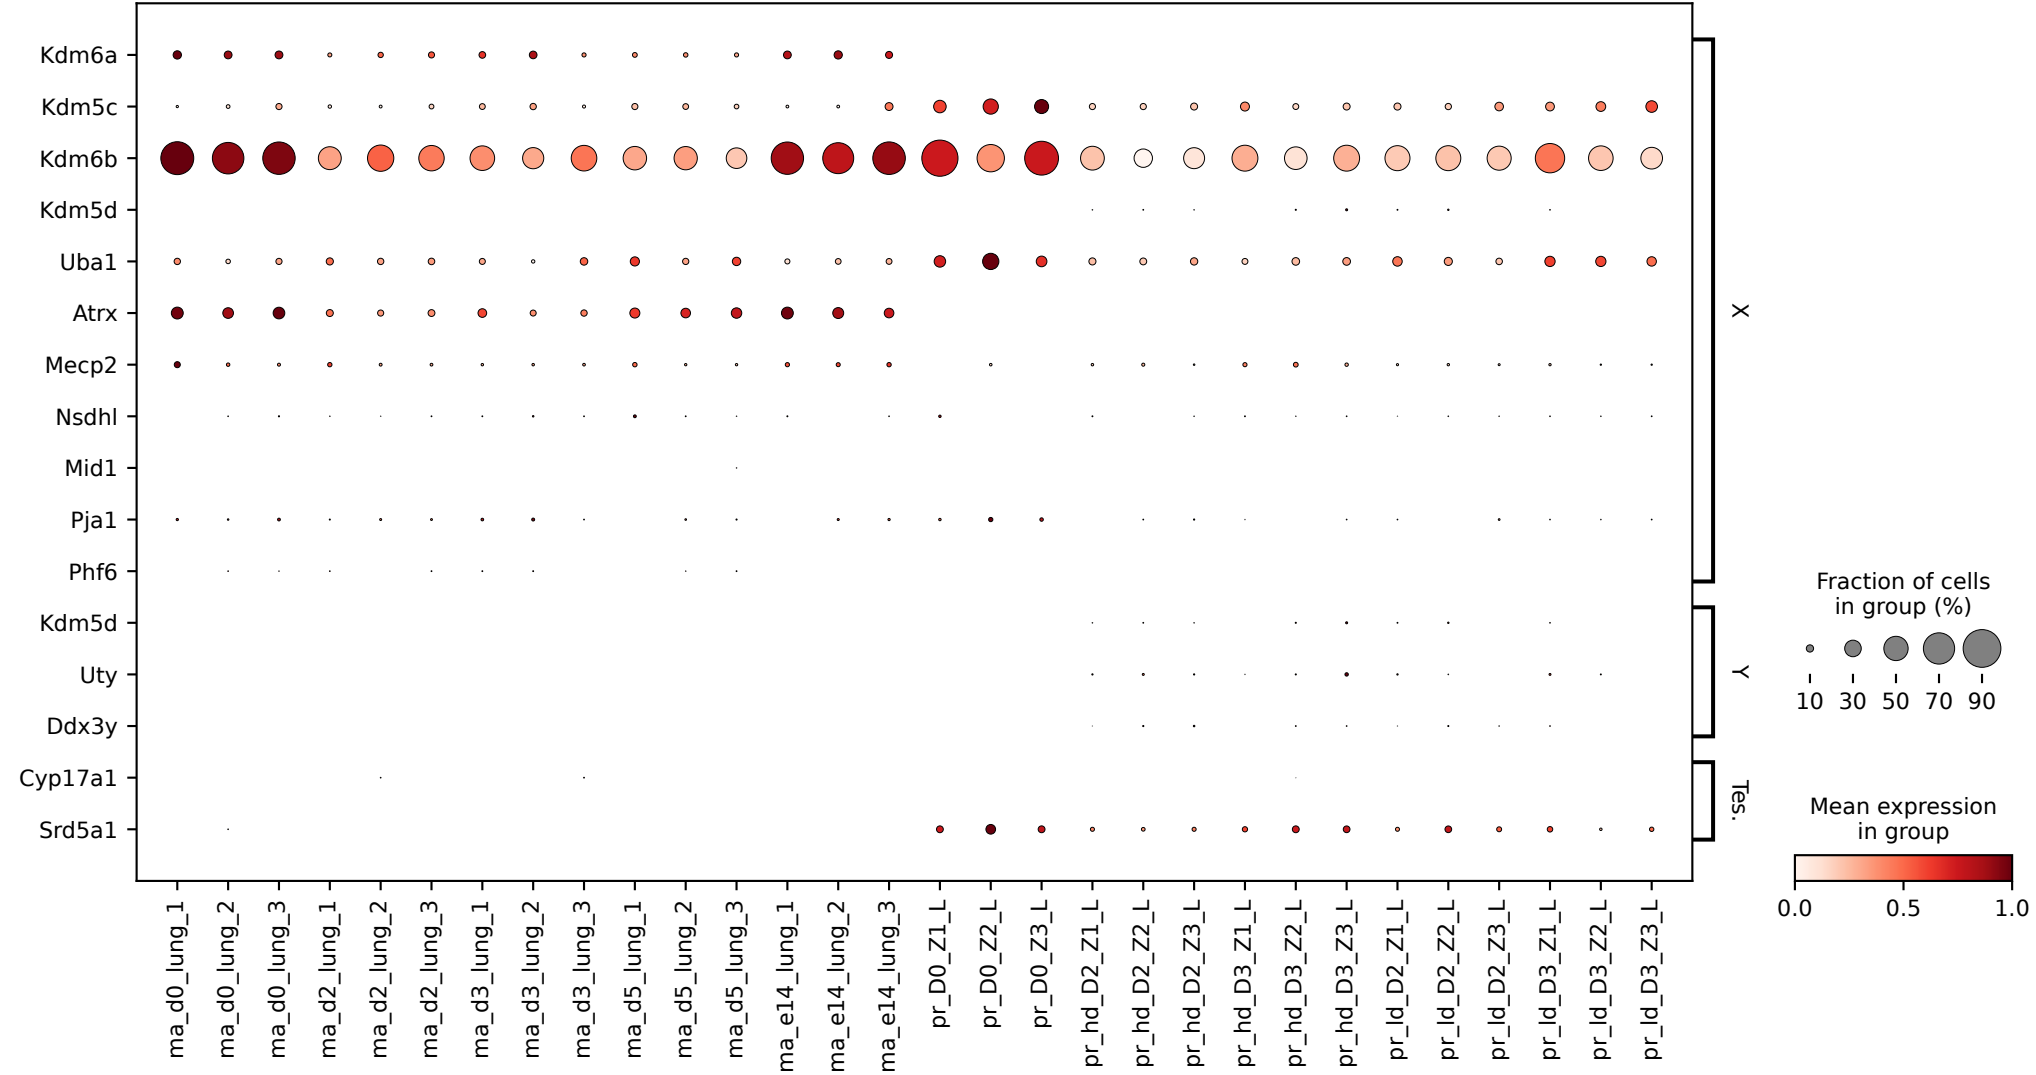

## Sex-specific genes in cDC across samples

## Sex-specific genes in Epithelial cells across samples

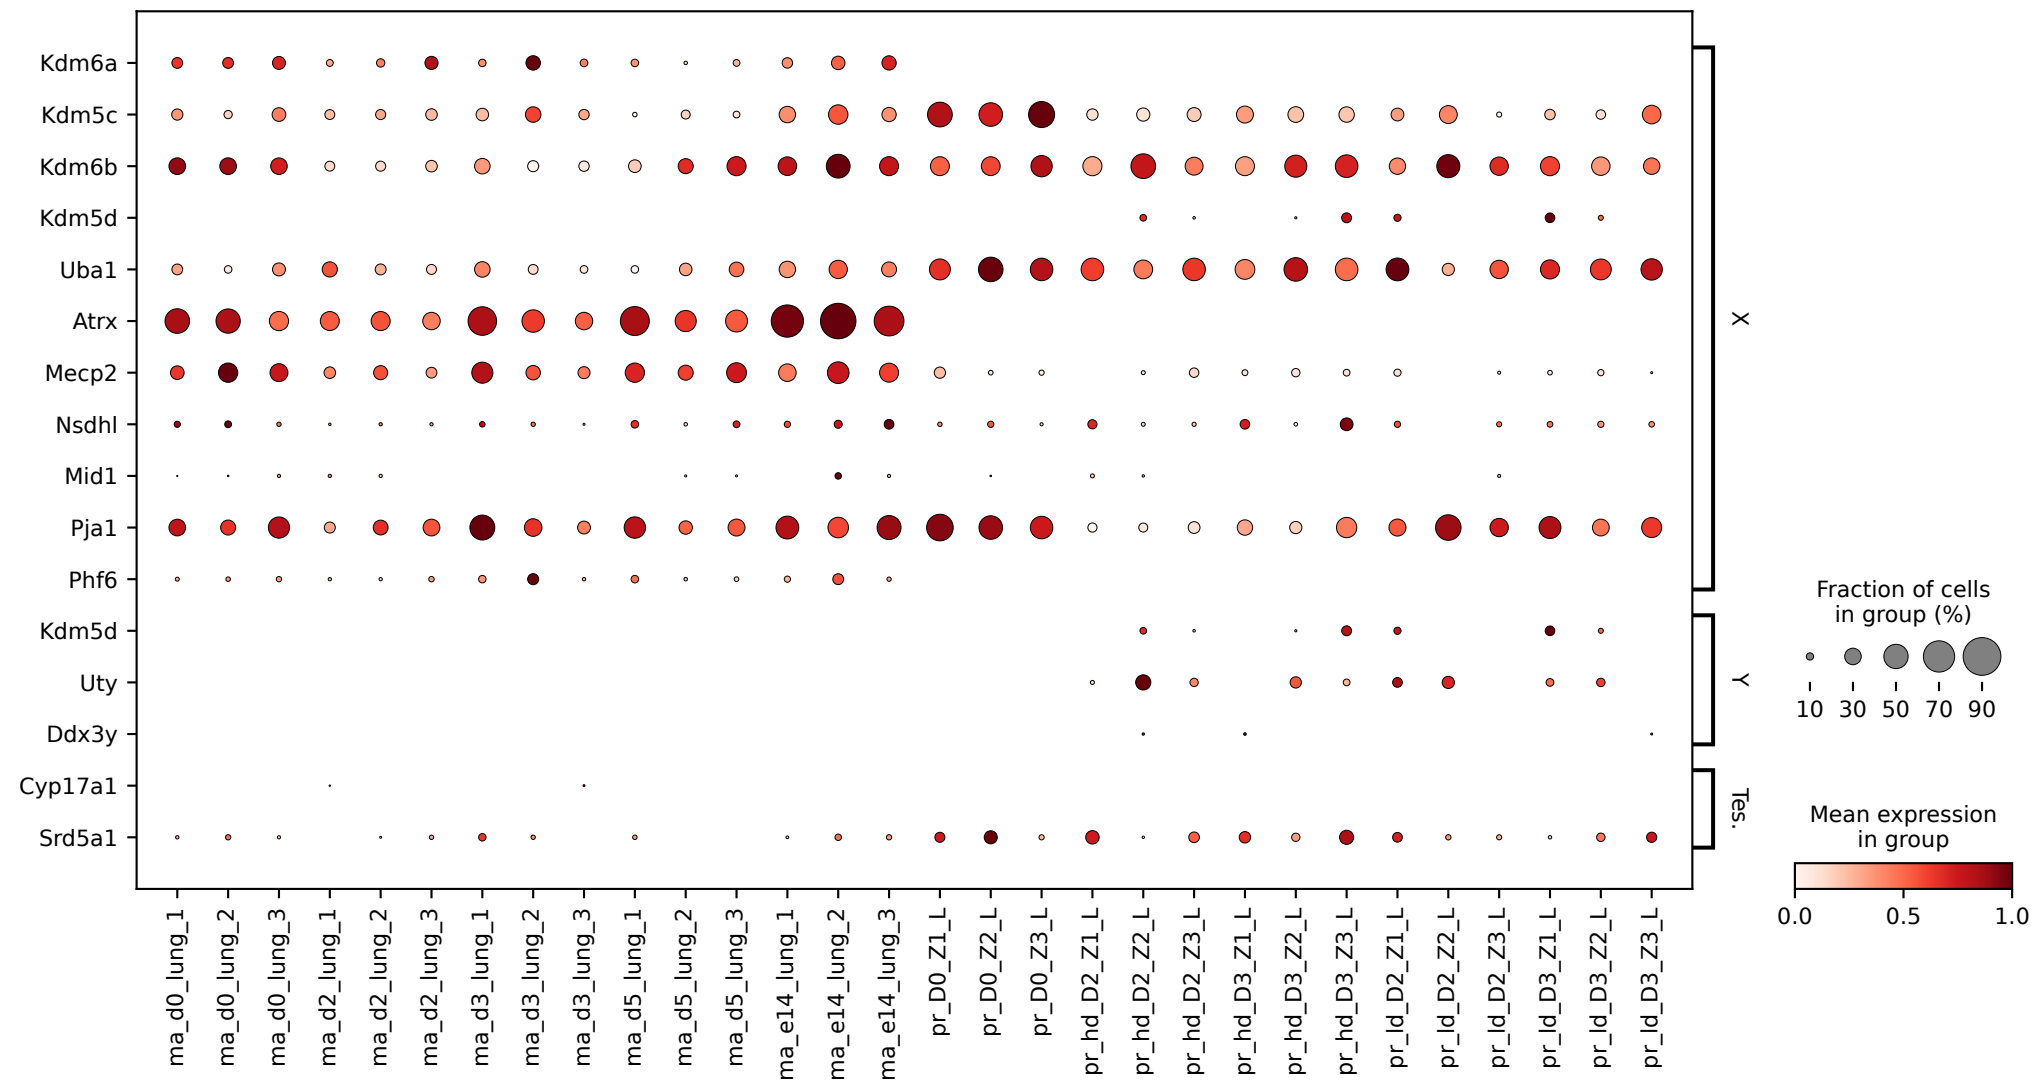

## Sex-specific genes in Neutrophils across samples

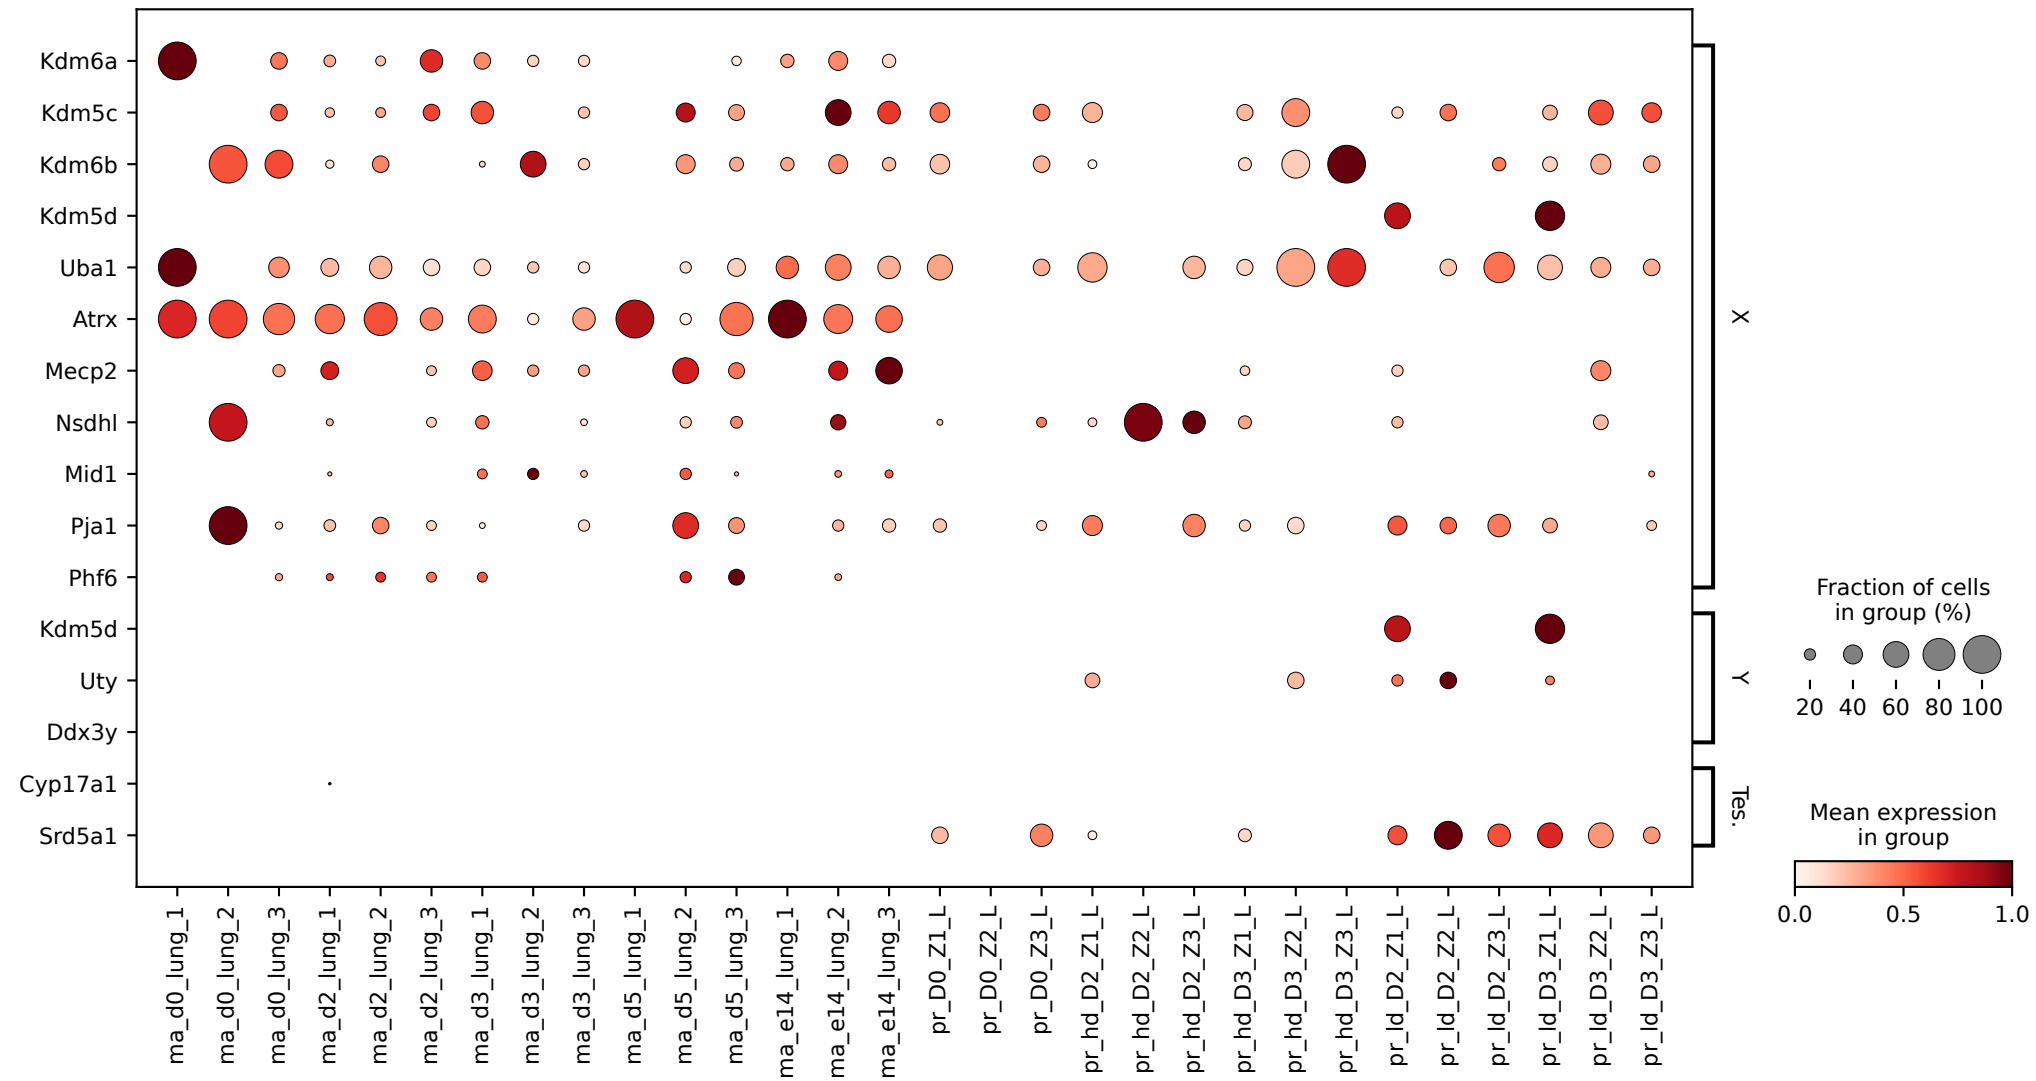

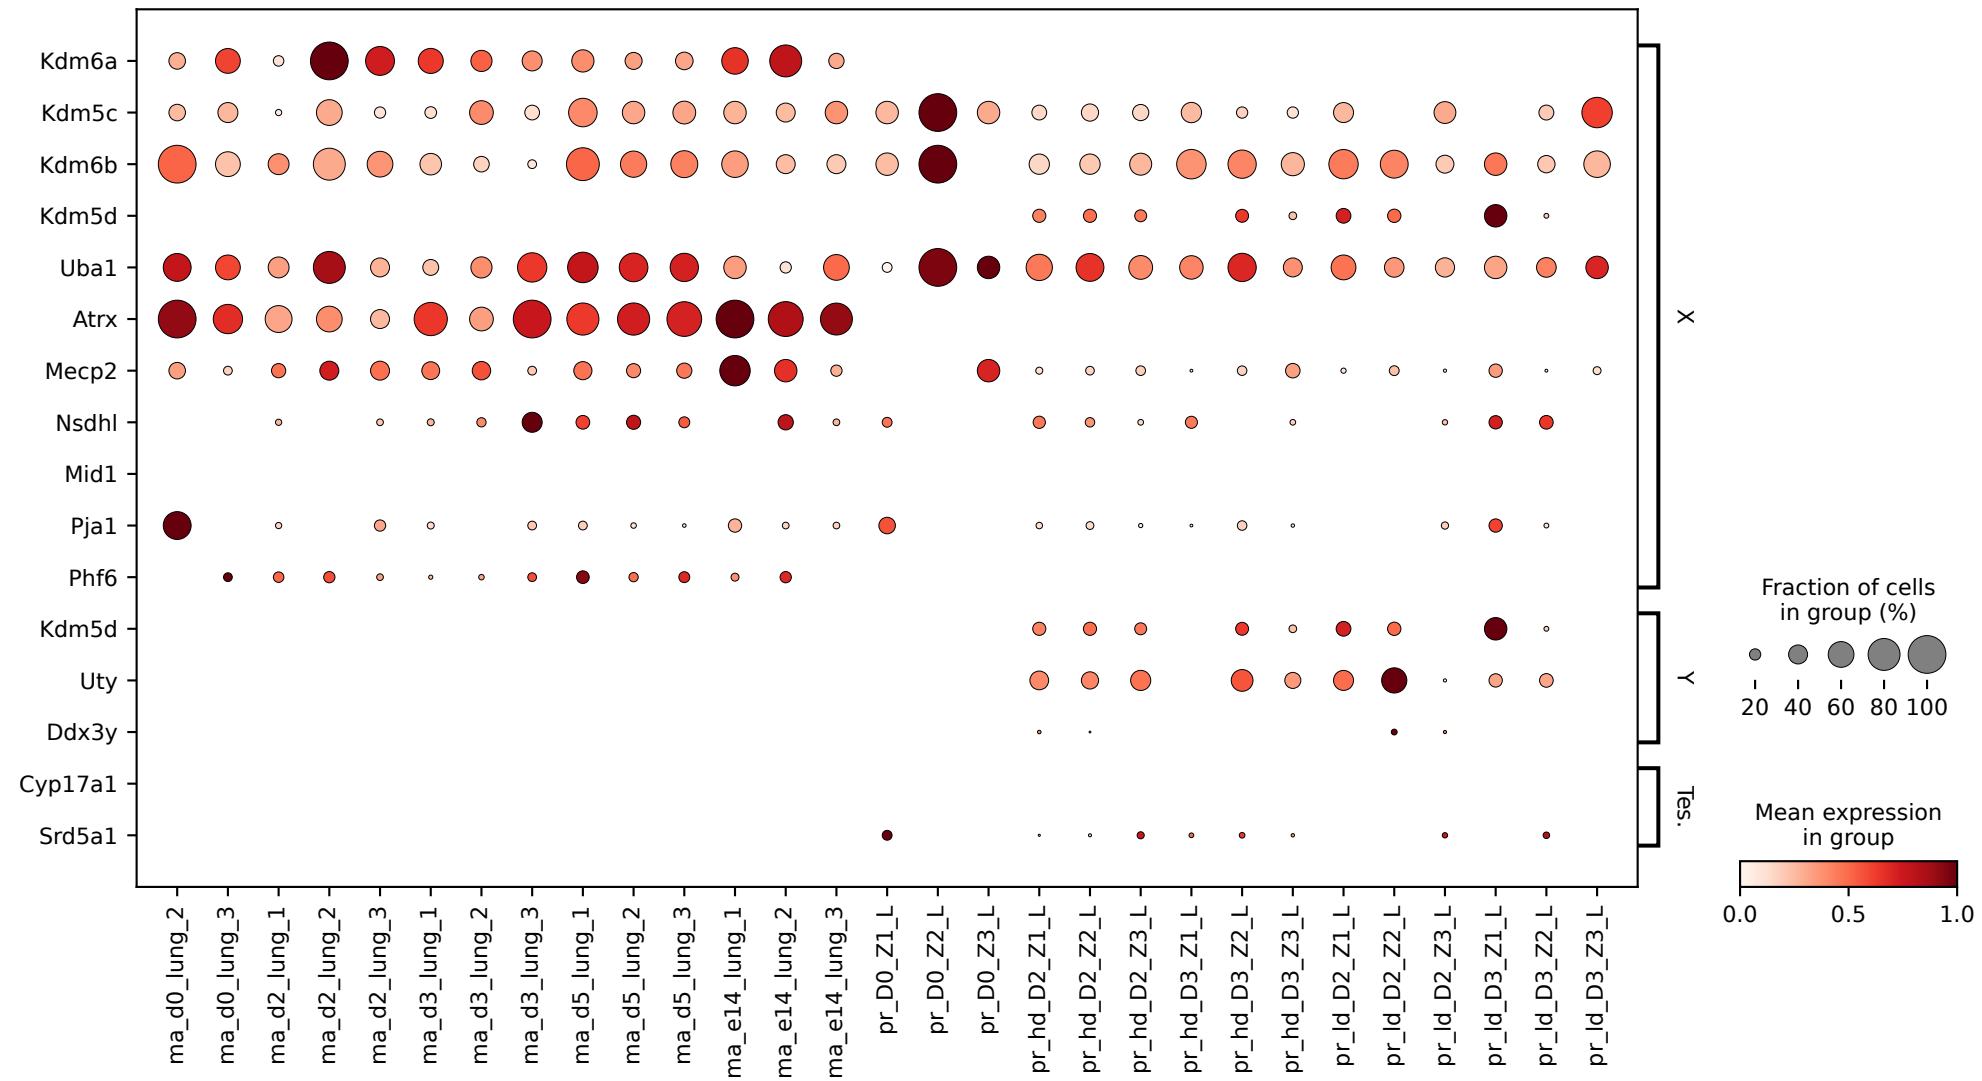

## Sex-specific genes in Myofibroblast across samples

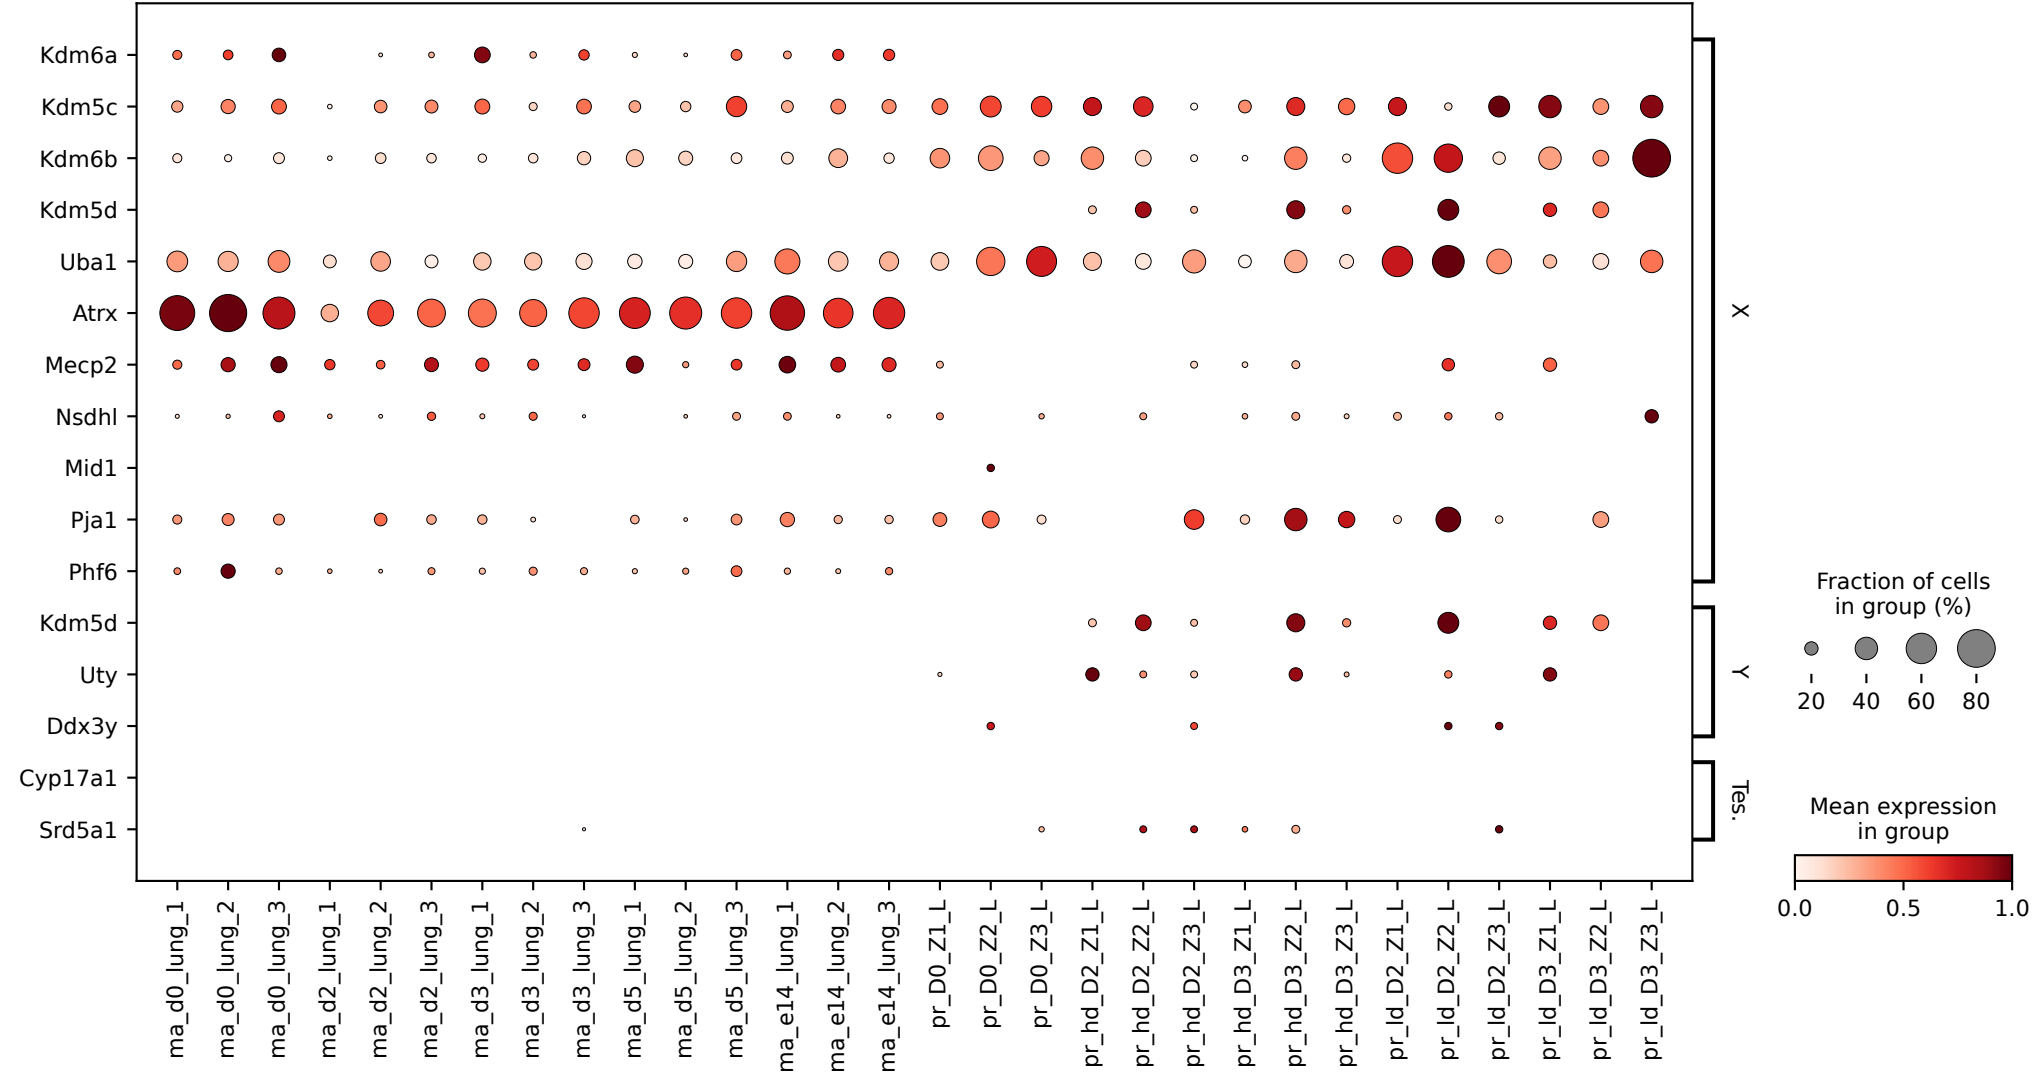

# Sex-specific genes in Fibroblasts across samples

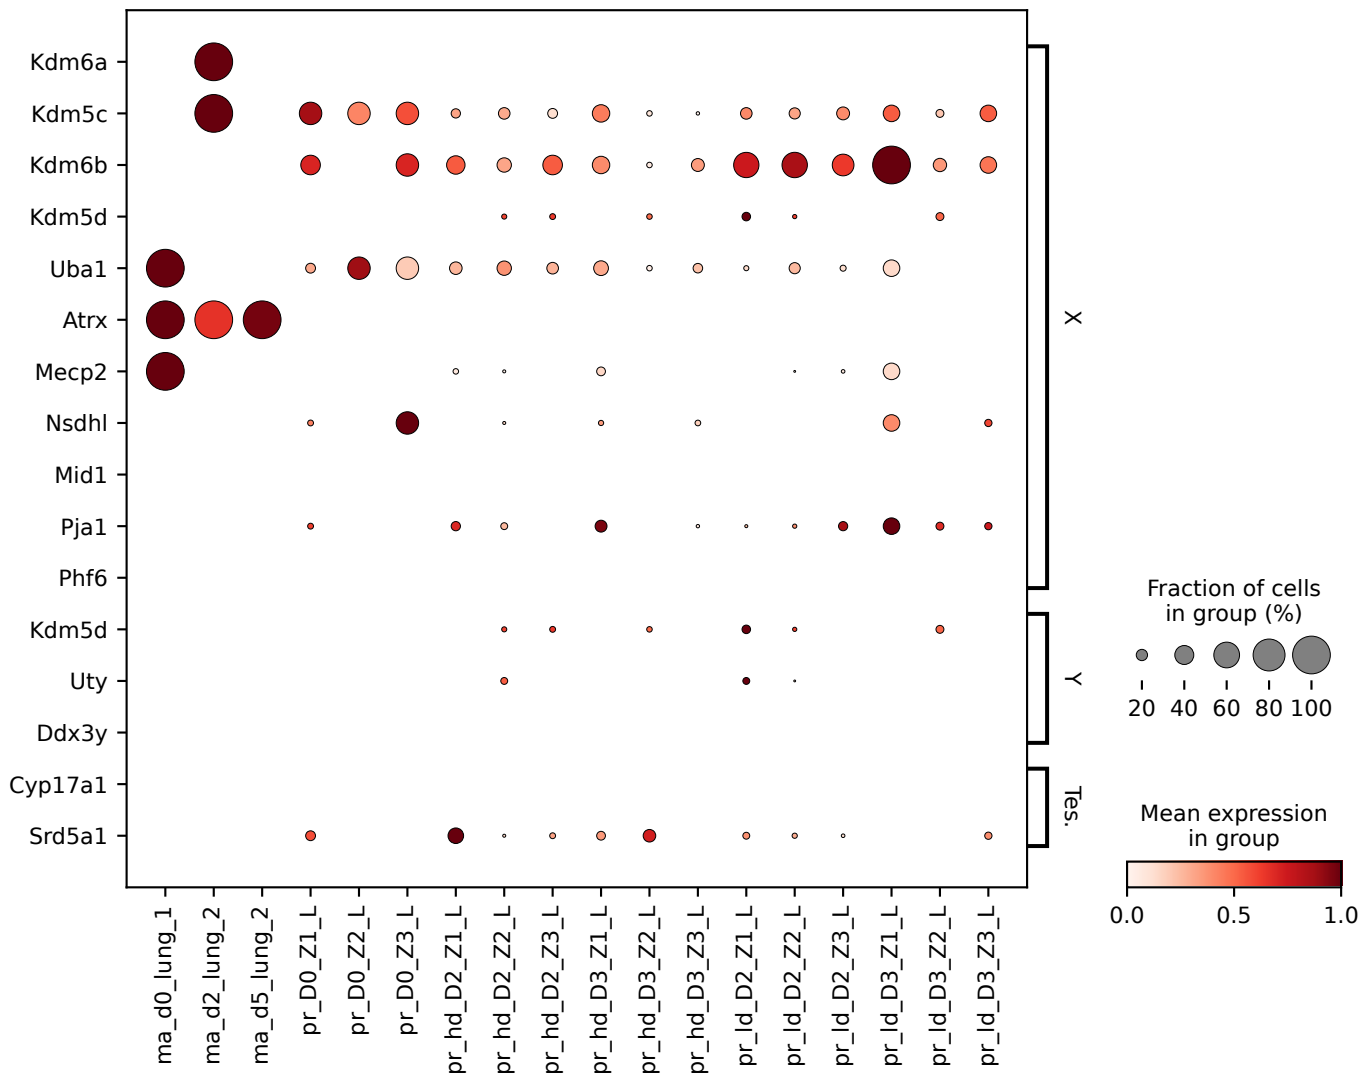

# Sex-specific genes in pDC across samples

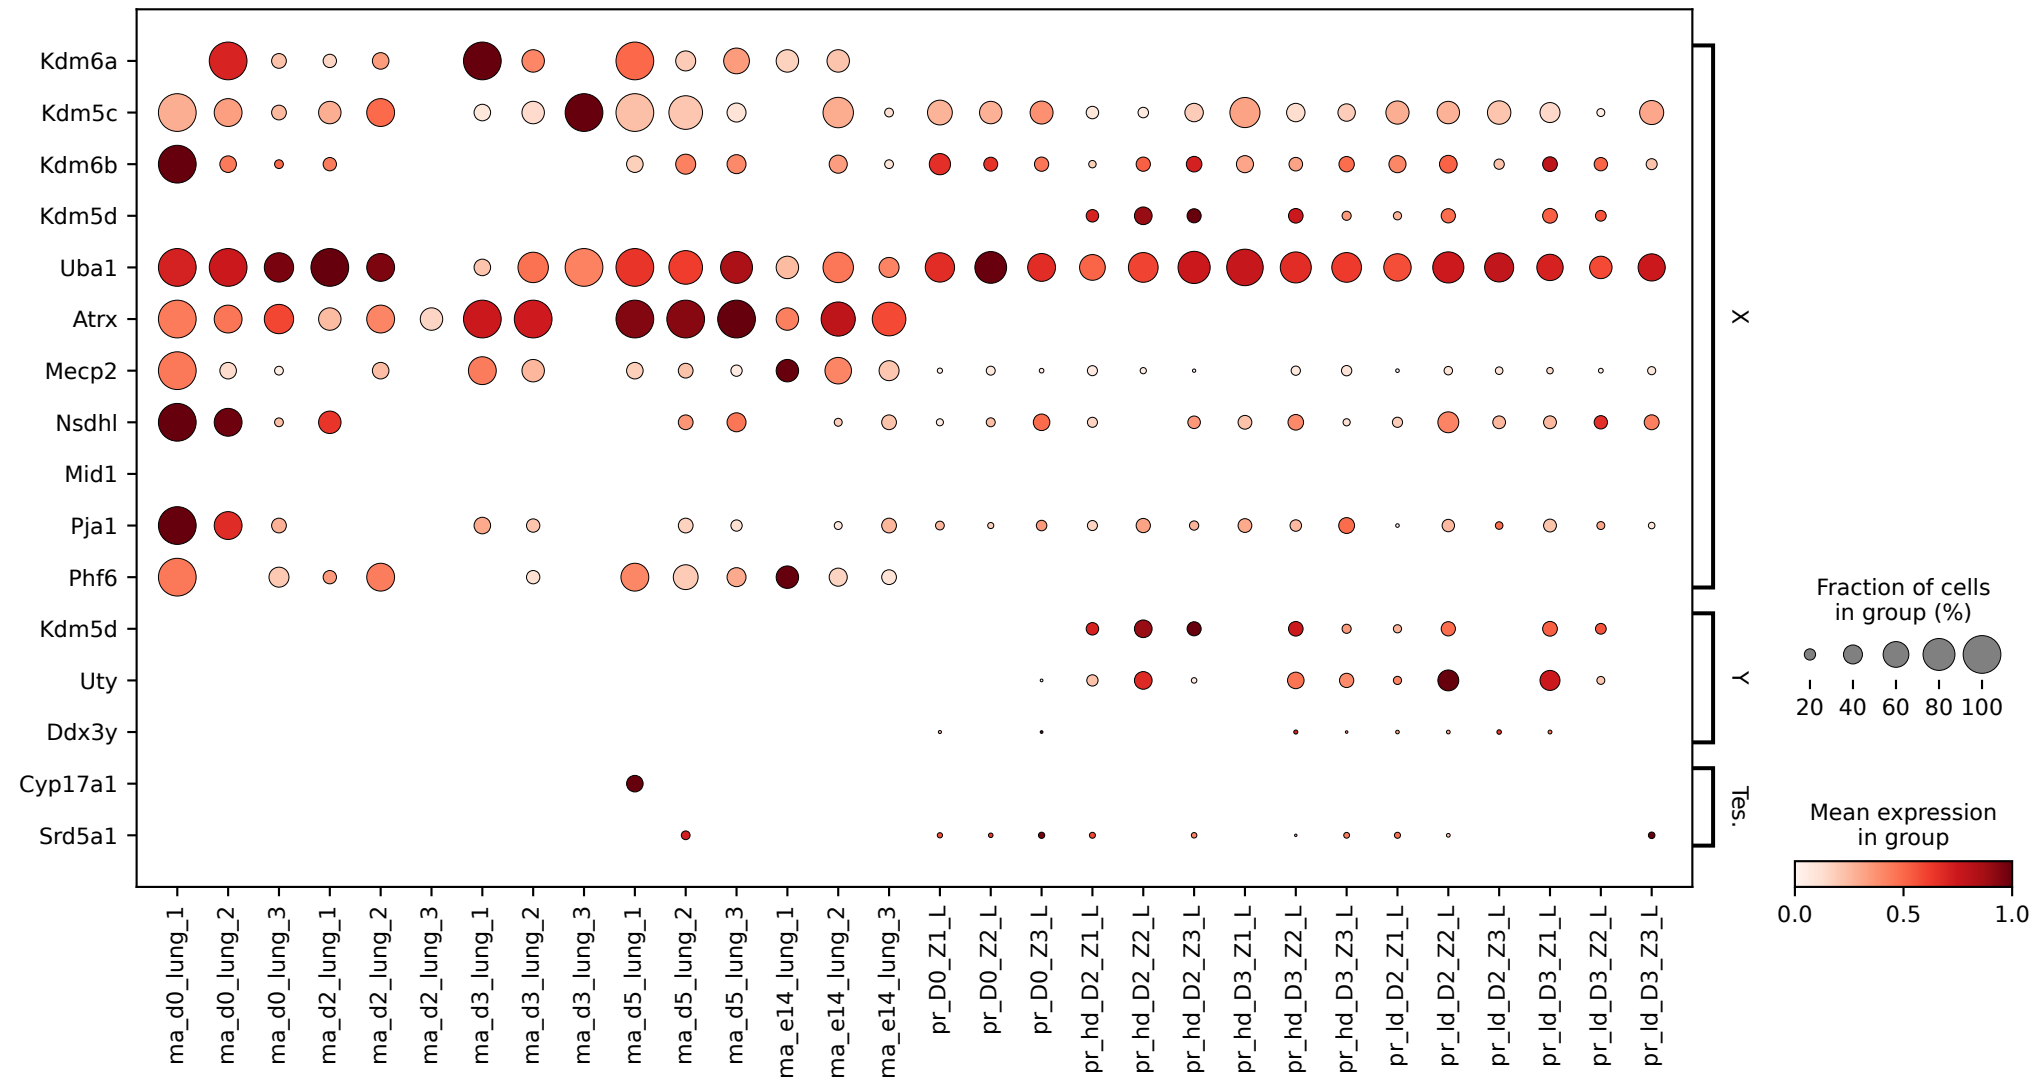

Sex-specific genes in ILC2 across samples

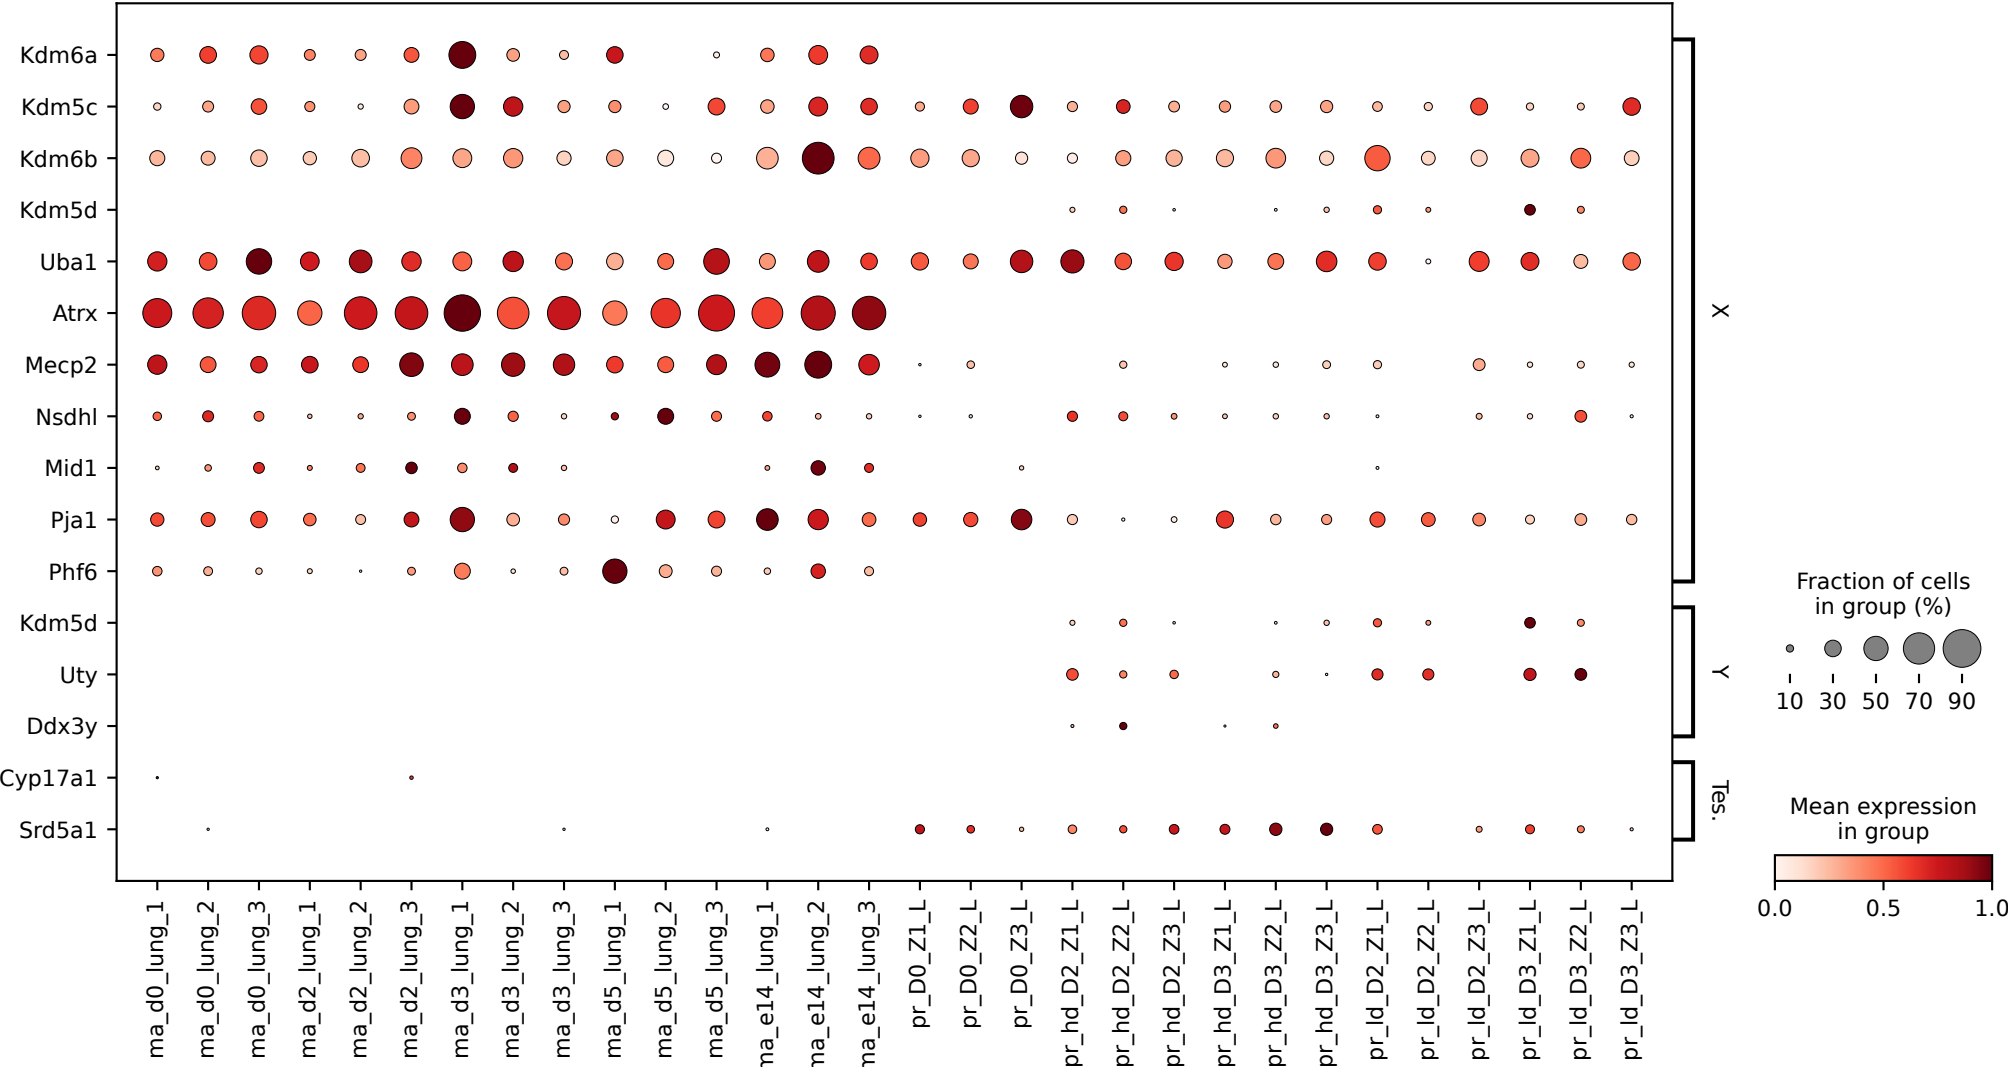

# Sex-specific genes in Mast cells across samples

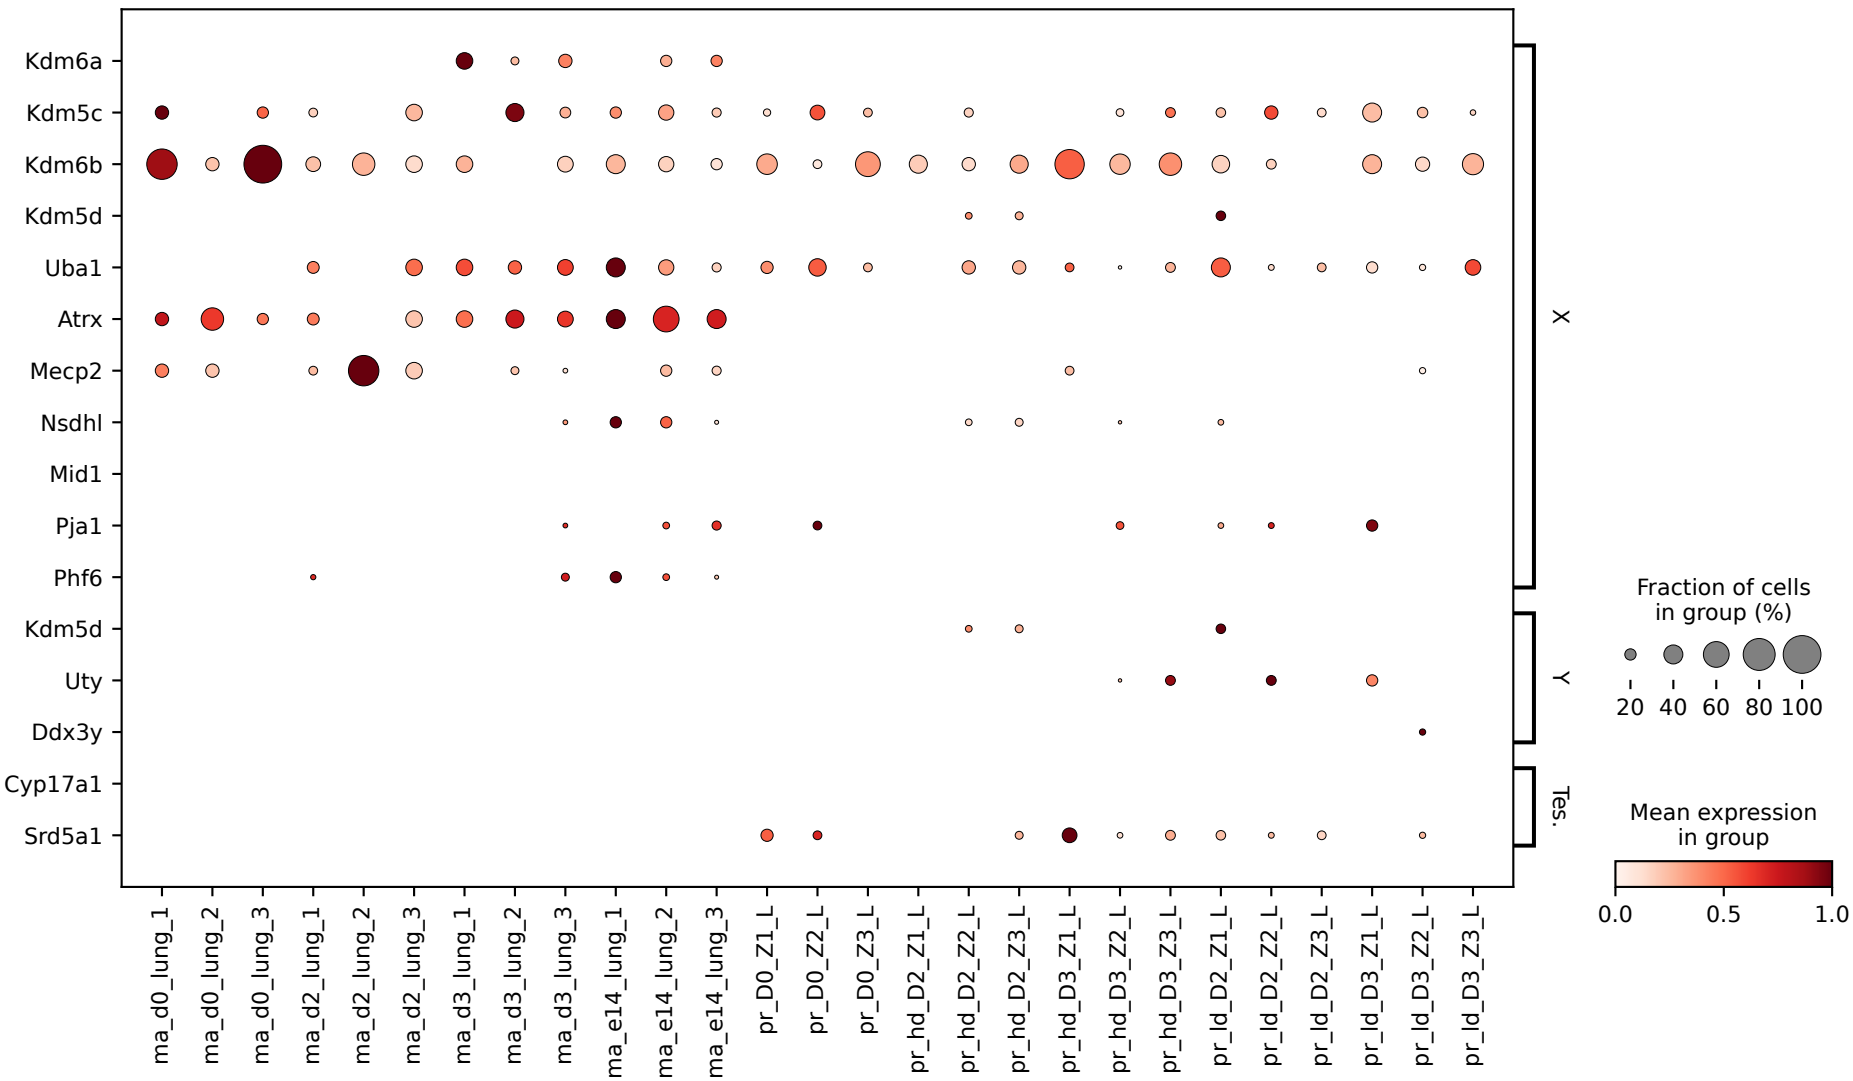

# Sex-specific genes in Plasma cells across samples

## Sex-specific genes in SmoothMuscle across samples

## Sex-specific genes in Erythrocytes across samples

# Sex-specific genes in Platelets across samples
